

Why This Prominent Local Attorney Likes the Way We Represent His Best Business Interests

Dan Schleck formed Schleck & Associates because he saw the need for a new kind of Minnesota law firm. One where the lawyers not only serve as legal council but as strategists and advisors offering a unique set of specialty services that don't include big law firm fees.

Today, Schleck & Associates has built an outstanding reputation for successfully solving a wide range of client challenges in the areas of business transactions, creditor rights, business disputes, bankruptcy, tax law, criminal defense, environmental law, redevelopment and real estate law.

The Business Bank's outstanding reputation is also what keeps Dan at The Business Bank. "Like us, The Business Bank delivers exceptional value across the board with the perfect combination of services. Additionally, the level of business and banking experience among their staff does not seem to exist in most banks today.

When Dan's not hitting the law books, he likes to spend his spare time outdoors coaching kids. With three sports-loving children of his own, coaching was a natural fit. "It sounds cliché, but coaching really is rewarding. Kids are so genuine. And honestly, I was going to be at their games anyway, so why not get involved?"

Dan likes the way The Business Bank is committed to staying involved in his business too. "I like the fact that they interact as real people. They don't blow smoke and they're always looking for new ways to help my business grow."

When you want a bank that presents the best case for success, contact one of our Business Bankers at 952-847-1100.
